KEY SKILLS

FRONT-END DEVELOPMENT

HTML | CSS | LESS | SASS | ES6 |
JavaScript | Angular | React | React
Native | Next.js

BACK-END & FULL STACK

Node.js | Express | REST APIs |
Python | SQL | C#

TESTING & DEVOPS

JUnit | Test-Driven Development
(TDD) | Jenkins

Version Control & Package Management

Git | GitHub | NPM

DOMINIC WOKORACH-OLANYA

SUMMARY

- Confident and adaptable Web & Front-End Developer with expertise in modern technologies
- Proven track record of building strong client relationships and delivering high-quality digital solutions under pressure
- Skilled in creating user-focused applications with a balance of technical precision and creative design
- Strong focus on service excellence, client retention, and driving business growth
- Passionate about continuous learning and embracing new challenges to expand technical and creative capabilities

2025 | E-LEARNING & CERTIFICATIONS

Codecademy: React | Express | Python | Implement Search Algorithms

HackerRank: JavaScript (Intermediate) | REST API (Intermediate) | Angular (Intermediate) | Problem Solving (Basic) | SQL (Basic) | C# (Basic) |

2024 | SOFTWARE ENGINEER (SHADOWING) – SKY

Observed Agile workflows and Scrum rituals

Learned CI/CD pipelines with Jenkins

Shadowed API development, testing, and code reviews

2023 | GITHUB PROJECTS (REMOTE)

Built real-time streaming interface with external APIs

Developed mock financial web app with authentication

Designed responsive weather dashboard

Created travel-themed web app with modern UI/UX

2020-2021 | BACKEND BOOTCAMP (UDEMY)

Built Node.js + TypeScript apps with REST APIs & GraphQL

Hands-on with MongoDB, SQL, authentication & security

2018-2020 | FRONT-END DEVELOPER – LLOYDS BANKING GROUP

Improved accessibility for online banking platforms

Designed and delivered conference websites & assets

Showcased prototypes for innovation team

2016-2018 | WEB DEVELOPER – LLOYDS BANKING GROUP

Enhanced Neo4j Graph Database with custom UI features

Contributed to IoT and chatbot prototypes

Gained Python and API integration experience

2015-2016 | SOFTWARE ENGINEER – LLOYDS BANKING GROUP

Debugged and validated UI updates for Lloyds Online

Ensured responsive design across desktop & mobile

Supported CI/CD with Jenkins

2014-2015 | IT APPRENTICE – LLOYDS BANKING GROUP

Rotated across DevOps, QA, Software Engineering, Mobile Apps
